PROFESSIONAL SUMMARY

Passionate Fullstack Developer with 4+ years of experience building high-performance web applications and data systems with focus on scalable solutions, optimizing performance, and delivering exceptional user experiences across diverse industries. Adept at collaborating with cross-functional teams to transform business requirements into elegant technical solutions.

EXPERIENCE

Software Engineer

EVEAD GROUP, Casablanca | 06/2023 - Present

- Developed a real-time ad/influencer monitoring platform, processing thousands of daily data points with Next.js, MUI, Shadcn, and TailwindCSS
- Engineered a Python-based data extraction pipeline, reverse-engineering social media ad formats to capture and reconstruct thousands of daily ad records (text, images, videos) for AI model ingestion (predicting brands/collaborations) and accurate platform visualization
- Optimized social media rendering system, achieving a **5x performance boost** and **notable operational cost reductions** without infrastructure changes
- Designed & implemented a multi-mode (basic, intermediate, advanced) SQL-like visual query builder, empowering technical and non-technical users for complex data search and querying, **significantly enhancing user adoption and data exploitation**
- Collaborated with the backend team (NestJS, FastAPI, MySQL, ClickHouse) to deliver highly optimized APIs, ensuring rapid query performance and reliable uptime at scale with daily data growth
- Optimized CI/CD pipelines with **Docker (including Dockerfiles) and GitHub Actions**, reducing deployment time and eliminating **integration issues**, while also **managing server deployments and scalability**
- Mentored junior developers, significantly increasing team productivity and improving code quality metrics

Fullstack Developer

UXCENTERS, Rabat | 11/2022 - 06/2023

- Developed comprehensive finance and management dashboards serving 500+ users across 3 countries using TypeScript, React, NestJS, and Prisma
- Customized data visualization components and grids, enhancing design alignment and user interface aesthetics.
- Developed an open source calendar system with advanced recurrence capabilities, **improving scheduling efficiency by reducing conflicts and accelerating coordination**
- Architected a custom role-based permission system in NestJS that improved security compliance while maintaining flexibility for 12+ user roles

- Collaborated with managers and designers on feature development and requirements which significantly improved operational workflows

Fullstack Developer

HIGHNESS DIGITAL, Kenitra | 02/2022 - 06/2022

- Modernized a Canadian theater website with Laravel, achieving **40% faster page load speeds** through version upgrades and enhanced mobile responsiveness
- Contributed to the integration of event management, subscription systems, and finance tools

Freelance Fullstack Developer

LIGHTSOFTWARE, London | 01/2020 - 12/2021

- Partnered with a UK-based agency to develop e-commerce websites and custom platforms for multiple clients
- Delivered fast, user-friendly interfaces using React, TypeScript, and Tailwind CSS, boosting conversion rates
- Architected scalable backend systems with Node.js and integrated payment gateways for smooth transactions
- Led end-to-end development cycles from client consultations to deployment across diverse industries
- Ensured code quality, met deadlines, and aligned solutions with business goals in a fast-paced environment

EDUCATION

ALX Full Stack Web Developer Nanodegree | Udacity | Completed 09/2022

Diploma of Specialized Technician | ISTA | Completed 06/2022

CERTIFICATIONS

- **Responsive Web Design** | freeCodeCamp | 04/2021
- **Front End Development Libraries** | freeCodeCamp | 07/2021
- **Full-Stack Engineer Career Path** | Codecademy | 10/2021
- **Data Analysis Track** | Udacity | 06/2019

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript (ES6+), React, Next.js, Vue.js, Svelte, HTML5, CSS/SCSS, Tailwind CSS, Material UI, Shadcn, D3.js

Backend: Node.js, NestJS, Express, Python, Flask, FastAPI, Django

Databases: PostgreSQL, MySQL/MariaDB, MongoDB, Clickhouse, SQL Server

DevOps/Tools: Docker, Git, GitHub, GitLab, Linux, CI/CD, Kafka, Postman, Chrome/Firefox DevTools
