PROFESSIONAL EXPERIENCE

Software developer Java/JavaScript

Oracle R&D

06/2022 - présent

Casaneashore

Oracle R&D is a research and development branch of Oracle Corporation.

Project: Oracle Database Multilingual Engine

- Develop and debug according to provided specifications.
- Enhance the existing CI and integrate new tools
- Collaborate with team members and stakeholders to identify requirements, issues and solutions
- Tools: **Java, devops, Jenkins, Javascript, Typescript, GIT, PLSQL, JIRA, Confluence, Linux, Bash Scripting, SSH, Gradle, JSON, XML, HTTP, SOAP, WSDL, REST, Junit.**

Software engineer Java/JEE Angular

DATAPROTECT / SYNERTIC

11/2020 - 04/2022

Casaneashore

DATAPROTECT is a company specializing in Cyber security security, and SYNERTIC is an ESN

Projects: SensiPRO, SensiPHISH, Data-SCIRT et SCORMER

- Analyze new features and study the impact on the project
- Reporting with Jasper Reports
- Development of new projects (Spring boot, Spring Data, Hibernate and Angular)
- Evolutions, corrections and migrations of existing projects (JSF, PRIMEFACES, Spring boot, Hibernate and Angular)
- Refactoring des projets existants
- Develop an Angular technical base

Internship PFE : Software developer & SRE

DATAPROTECT

03/2020 - 09/2020

Casaneashore

Project: SRE avec Elastic stack

- Development of authorization management module (JAVA, Spring and Angular)
- Implementation of an Elastic Stack (ELK) cluster for application-side monitoring (Elasticsearch, Logstash, Kibana and metrics agents)

FORMATION

Master's degree in Computer Science and Modeling of Complex Systems

Faculté des sciences et techniques

2018 - 2020

Settat

Program

- Génie Logiciel JAVA/JEE
- Machine Learning
- Big Data : Hadoop, Spark
- Oracle DBA1 ,PL/SQL
- Mathématique et Analyse Numérique

TECHNOLOGIE

JAVA/JEE

SPRING BOOT

ANGULAR

Microservices

JAVASCRIPT/TYPESCRIPT

HIBERNATE

Docker

Jenkins

JSF

PRIMEFACES

PYTHON

GIT

SVN

MYSQL

UML

ORACLE PL/SQL

BIG DATA

ELASTIC STACK

MACHINE LEARNING

PERSONAL PROJECTS

Deep Learning : Speech Recognition

- Realization of a deep learning application with Tensorflow with CNN and LSTM

Machine Learning Library

- Implementing Neural network from scratch
- Using OpenCL for hardware acceleration

CERTIFICATES

Certificates Of Completion: Learning Linux Command Line, Linux Bash Shell

Certificates Of Completion: Java 8 Essential Training, Java Memory Management, Java Threads

Certificates Of Completion: DevOps Foundations CI/CD, Lean and Agile

LANGUES

English
