

EL MOUSSAOUI Hajar

Data & Software engineer

Mobile: (+212)680276109

E-mail: el.moussaoui.hajar142@gmail.com

LinkedIn: <https://www.linkedin.com/in/hajar-el-moussaoui-2a196611a/>

Technical Skills:

Programming Languages: Python, Java, Cobol, Javascript, typescript, C, SQL, VBA.

Artificial Intelligence: Machine learning, Natural language Processing (NLP), Deep Learning, Information Extraction.

Python Libraries: Keras, Tensorflow, Flask, NLTK, Numpy, Pandas, Matplotlib, Selenium, OpenCV, Scikit-Learn.

Web Technologies: React.js, HTML, CSS, XML, PHP, JEE, Spring.

DevOps tools: Git, GitHub, GitLab, Jenkins, npm, yarn, Azure.

BI Technologies: Qlik sense, Power BI, Pentaho, Talend.

Project Management: Agile.

Languages: English, French, Arabic.

Experiences:

R&D/BI engineer

Finéa | Full-time | Casablanca, Morocco | September 2024 - present

- Missions: Generate ETL process that merge and blend daily reporting data and automate regulatory reports and data extraction; Creation of dashboards and finding insightful information for stakeholders for decision making; Project management and management of relations with service providers and writing specifications; Administration of company website and database; Handling and managing incidents, ensuring server backup and recovery.
- Technologies: Pentaho DI/VIS API, Metabase, Javascript, Linux, GLPI, PostgreSQL, Java, HTML, Jobscheduler, MS Access, MS 365, VM.

Software & Data engineer

Berexia | Full-time | Casablanca, Morocco | September 2022 - September 2024

- Missions: Coordinate data extraction and acquisition; Create REST APIs; Implement algorithms and data management techniques to extract valuable information from large datasets; Create and iteratively improve machine learning models; Analyze business requirements to translate them into data-driven solutions; Collaborate with interns to services such as modeling and dashboard development.
- Technologies: Python, Flask, SQL Server, MongoDB, Design Patterns, MS Azure, Docker, Jenkins, Git.

Software engineer

Insurbt | Internship | Casablanca, Morocco | June 2022 - September 2022

- Technologies: React.js, JavaScript, TypeScript, MUI, Spring boot, Toad for Oracle, GitLab.

Modelling of the DAP fertilizer production process

OCP Group | Internship | Jorf Lasfar, Morocco | April - September 2021

- The objective is to build advanced analytical models to predict the fertilizers granulation and create analytical dashboards for better management.
- Technologies: Python, TensorFlow, Optimization Algorithms, XGBoost, Dash, Flask, Bootstrap.

Building a Covid ChatBot with NLP

CREASYS Maroc | Internship | Marrakesh, Morocco | September - October 2020

- The objective of this project is the implementing of a Chatbot by state-of-the-art NLP models, the Sequence2Sequence model, and Tensorflow.
- Technologies: Python, Flask, TensorFlow, HTML, CSS, JavaScript.

Car Park Management System

ORMVAH | Internship | Marrakesh, Morocco | August 2019

- The objective of this internship is to develop a JAVA application
- Technologies: Java, SQL, phpMyAdmin.

Cosmetic website with Recommendation System based on Collaborative Filtering.

- Technologies: Python, Scikit-learn, Selenium, Qlik-sense, PHP, HTML5, Bootstrap.

Education:

Engineer Diploma, Business intelligence & Data Engineering

National Institute of Statistics and Applied Economics | Rqbqt, Morocco | 2018-2021

Diploma of CPGE studies, Mathematical & Physical Science

CPGE Ibn Timyia | Marrakesh, Morocco | 2016-2018

Certification:

IBM, Big Data Engineer v2 Explorer Award 2020

IBM, Data Science Orientation.

LinkedIn, L'essentiel de Power BI.

Fun Mooc, Python 3, basic concepts.

Great Learning, NLP Language Detection.

Institut Montaigne, Objectif IA: initiez-vous à l'intelligence artificielle.

OpenClassRooms, Devenez un expert de Git et GitHub.

OpenClassRooms, Débutez avec React.

EAGLE, Cocepts qualité & ICO 900.
